FY10 - 13 July - Geneva - 1950
 (UP) Eden did not come to mediate between
 Comm^{ists} + US. He stands firmly with Mendes.
 Conciliation + firmness. The two agreed US
 should be one of the guaranteeing powers. Mendes
 will meet Chou. For the 1st time he conferred
 with Doy. All indications were agreed in
 principle of a cease-fire line instead of negoti-
 ating zones. French asked the 18 parallel from
 Savanna Khet to Quang Tri and an emergency
 for Hanoi-Hip Phung. The Reds the 13 parallel.
 Mendes talked 2 hours with Meun. (Reuter). First
 meeting between ministers of Vietnam + Union.
 Do had a talk with Mendes. B. + S.V. agreed
 negotiations should be conducted through pri-
 vate meetings. (USIS). Dulles to Paris. Dulles
 + Eisen. conferred several times. "I got an
 invitation," he said. (Reuter) Acceptance of
 the invitation represents a considerable soften-
 ing of his earlier determination.

(UP) - French spokesman said Dulles flight "no difference to France 20 July deadline" - (Pinter) Mendes F anxiety to get U.S. support for an Indina agreement prompted him to call a big 3 meeting. Eden + Mendes hope Dulles will return to Geneva. Possible however it was a Dulles initiative. Dulles decision widely criticized in U.S. (AP). Smith expected back in Geneva - Indina - (AP) 203 months given to French to withdraw from Hanoi - India wants Hanoi - Probable a partition line near the 17 parallel. French want to keep Tonkin in the 16 parallel, which is a strategic S.E. Asia base. (AP) Chinese war aid stepped up. (UP) New Delhi The Indian Vice Consul in Hanoi instructed to stay even should the S. men occupy the city. Churchill Speech - (UP) C. declared B. like U.S. opposes admission of China to U.N. - But B. still favors admission

when she is satisfied China keep to U.N. Charter - A S.E. Asia system not incompatible with an Indina settlement. It would be "little less than madness" for France to leave Germany with no alternative to raise her own army. He + Eisen. discussed a possible meeting with Malenkov - He was "astounded" into requesting the Wash. meeting by the power of H. bomb. (VP) Wash. Speaker of the House said he was delighted by Churchill statement against China to U.N. Other key foreign policy figures generally applauded it, also Knowland was pleased. (VP) Postponement of the question for at least another year. Opponents of China admission want a revision of the Charter to bring indefinite delay on the question. U.N. (INS) Diplomatic circles viewed as possibility the removal of hostilities in Korea. Till now U.S. can keep Phee in check because of his lack of heavy armaments. Heavy artillery, tanks + jet in U.S. hands. S. Korea effort to obtain them got "sympathy" but not much else. Phee planning a trip to Wash. chiefly for this reason. Korea.

does not discount the possibility of unilateral action - (VP) - Rhee will decide whether it is war or peace in Korea. Most observers doubt China + N. Korea will break the armistice.

FYIO - 14 July - Geneva -

(Renter) S.V. condemned the calling of the Big 3 meeting as a U.S. bid to prevent B. + F. to agree to an I Ching settlement. Before leaving Mendes saw Chou + a third meeting with Hong. Eden met Chou + Molotov. Talks were cordial. Reliable sources said Vietnam + Vain agreed on no partition + any regroupment purely provisional. Till now Vain attitude was causing anxiety. (Renter) Paris - Vain representatives reported anxious to get in touch with Dulles. They are hostile to the being of agreement. Dulles said there will be further talks tomorrow morning. Eden said in Geneva tomorrow afternoon.

(AFP) Mendes + Dulles conferred at U.S. Embassy privately. (VP) Mendes before the

meeting predicted a quick settlement in a week - (VP) - U.S. went with demand of Comm. from Laos + Cambodia + their complete freedom.

Reynolds, no straight division -

No Comm. veto in supervision of an armistice - Free elections but not immediately. Britain instead saw no alternative to partition - (VP) Some US officials indicated the 3 will agree to set up SEATO immediately.

(AFP) - Vain M. of State to Paris to meet Dulles if possible. (VP) France agreed to 7 conditions laid down by Eisenhower + Churchill - But no surprise, only omission no mention of a prohibition of "a partition". (Renter) Mendes called on Molotov after meeting Johnson.

(Renter) Dulles decision to fly to Paris generally supported in Congress. Some fear the damaging international repercussions of US after agreeing to seek peace in Indochina at Berlin, now refused to give some backing to the French. But - those led by Kennedys are against Dulles return to Geneva. The initiative for the meeting came from Dulles himself, though the invitation was issued by Mendes.

The meeting to agree how far France should go + maintain western unity.

Indochina (Renter) For the first time in 7 year war China attacked Mekong river city of Pakse in southern Laos near Tai border - U.S. States - (USIS). A resolution offering China to UN unanimously approved by the House F. Affairs Committee (USIS). U.S. military aid to Tai. increased. Thai Ambassador Serana told a press conference - The Tai mission a week in England before going back - Not yet dismissed the news of defense pact, so much in the news, but will be dismissed. Talks purely military, not political. (USIS) - U.S. announced a new program of aid to Tai, administered by Gen. Gillmore - 3 million dollars for the construction of highway from Fanchiang through Khat to Ban Phai, 297 miles. Strategic + economic value.

SE Asia - (Renter) Mal - India ready to join an "Asian Warsaw" pact to protect states in the North of SE.

Asia including the 3 states, it kept from this including Malaya + Philippine + India would join the Warsaw pact. Not of the SEATO. No commitments which high 2 facts under discussion by western powers. The northern one a Warsaw type pact. The southern one including Malaya + Philippine - India would join the first, oppose the second. The conception of a Warsaw pact does not allow for commitments of military nature which might involve her in any war. As the treaty over Tibet, an expression of principle. (USIS) Nerve denied the refusal to admit China into UN a blunder - puzzled when people talked of quitting U.N. when big powers conduct world politics. That way, he failed to understand their attitude. (AP) - No specific plans for Neri to visit China. In Rangoon an influential paper said Burma + Indian Premier invited to Peking. (Renter) Manchester G. said France more important in the balance of power than is recognized. Behind US refusal to admit China to U.N. lies

its unwillingness to sacrifice France".
France will be an impediment certainly
to any general settlement in the Far
East. It is something ~~more~~ ^{more} than a

Vietnam, agreed "in principle". Even if Cam. & Laos
are "neutralized" US supported "in principle" by
F. & B. will include them in the guarantee.
US flatly refused to guarantee the anticipated
agreement. US. cannot accept even indirectly the
extension of Com. involvement. It will close
other ways not seeking to overturn it itself
by launching aggression. EDC only mentioned
briefly. French sources indicated the agreement
Monday also would include basic elements
of a political settlement. The communiqué
pointed out the differences, but French were
jubilant. (Renter) Eden assured Molotov

peace negotiations. (Renter) B. & US. in
