They restore - There is not exact date

India - NRRC not responsibility, but
responsible are the 2 sides - In ^{their} from
India not agrees, but in action they
agree with U.S. - (for your information)
U.S. Possible detention of P.O.W. -
why India acted as this -
our stand is clear - To go back
peaceful life -

India shift the responsibilities -
The disposition is against the terms
of reference - India tries to legislate
their action as legitimate -

- 1) U.S. shift the responsibilities also -
- 2) legislate too -

They strive for the same think -
How they achieve this ends -

After India says there is no agreement on the two sides. ONU approval they seek. This is not unilateral action. VS the same - justification & legalism. India tries very hard for the convocation of ONU. Never asked several times. Now India is mowing.

VS now in paradox. They wish to legalize, on the other hand they are afraid of a general debate on the Korean question.

Great difficulties - The demands of Chinese-Corean side to be present. Soviet U. has a chance to expose the American and also others.

II difficulty. India asks

the ratification of the action.

India bases her stand - Inacceptable to U.S.

U.S. Esita per la convocazione - She tries to procrastinate - Bargaining on the issue of the convocation with England + India. Two sides wanting both sides want to legalize their action.

No basic difference. Contradictions are not insurmountable.

After the convocation the issue to ratify the action of India & U.S. can be solved. India wants cover up with beautiful words, favor of both side to maintain the neutrality. India a fortune - al campo del capitalismo.

India in some way will come in conflict with U.S., only on the surface, but good for us. We frankly criticisms, no attacks, not even on the friends.

1) The argument on what issue we have argument + disputes with India -

2) Main target of attacks - we have been consistently main target towards U.S. - Minor target Swingers & dropers. In the early stage of work of N.R.R.C. we were to be in air, India, America was grave problem. Last stage on the side of U.S. - They strongly oppose use of force to bring POW to the

Explanation - The same stand of U.S. Also for the release. Swinger made a proposal asking for the declaration of civilian status - shamelessly working for U.S. especially Swingers. Main importance.

to Mao proposal + now submit
 it to the discussion - The decision
 which was adopted, points out
 the unity within the ^{party} working
 class, working people, all the people
 is the fundamental guarantee
 for the victory of revolution - This
 is one of fundamental principle of
 Marxism-Leninism - The Chinese Com.
 P. depend from the unity within
 the all party, lead the people of
 all country to complete the new
 democratic revolution + had established
 the People Republic, but the course
 of revolution in China has not yet
 been finally completed, enemies
 of people internal have not been
^{fully} eliminated ~~eliminated~~ + ~~the~~

involvement of imperialism shall
 exist outside the country. Now
 China is in a period of socialist
 revolution, namely socialist transfor-
 mation, we have to realize socialist
 industrialization step by step to
 realize the socialist transformation
 of agriculture, handicraft in-
 dustry, capitalism industry +
 commerce so as to build up our
 country as a great socialist country.
 This is a revolution which is now
 deeper + wider than that revolution
 against feudalism, imperialism +
 bourgeoisie capitalism. This is the
 the most complicated + sharp struggle.
 In this struggle the imperialists out-
 side the country on one hand

will never be indifferent + on the
 other hand the classes which were
 already overthrown will never be
 satisfied with their death + those
 classes which will be dominated
 must carry on counter struggle. The
 most insistent element counter-revolution-
 ary + imperialist outside the country
 must collide each other + will
 take every possible opportunity to carry
 on the activities obstructing the work
 of the P. + the people to ~~make~~ the
 failure of the Revolution
 + to restore the reactionary rule.
 The imperialist + counter-revolutionary
 elements will take to obstruct our
 work ~~in the~~ ~~in the~~ ~~in the~~ ~~in the~~
 of the P. + to find

Therefore agents inside the Party -
our Party had two opportunist

+ Bure in the Party of the USSR.
This important historical lesson shows
that the enemy not only try to
look for the agent inside the Party
but also they have found the
agent + later they will be able
to find some members who are
now firm + unloyal + even
have their own attempt.

The C. Bureau considers it should
be strenuously pointed out
the most dangerous threat to the
Party is that the enemies
carried on partition, to cause
substantial activity + to use some

section "if the enemy really can be
able to create such sections" as
their agents" because the enemy +
we understand this truth: Should
work is easy to explode inside
than outside. ^{it is never} ~~the~~ Party
~~never~~ think that ^{it is} particularly
strange for the imperialist + the bourgeois
elements ~~which~~ who resist to
socialist reform to create parties
+ find agents inside the party -
No - only it will be strange the
contrary - Therefore our task is not
to use the spirit of peace to disar-
more the vigilance of the party,
but in the contrary is to use the
vigilance with the practice class
struggle + the historical lesson.

to keep the Party awoken of
 And to reply
 the plot of enemy with the
 practical action of the strengthening
 of the unity inside the P.
 The decision of the thought was
 adopted by the plenary meeting
 analyze the situation present
 in the Party. It points out the
 Chinese Communist Party has
 formed a unified central leader-
 ship + the unity inside leader-
 ship. Mao is at the head in narrow
 union on the most political
 line + organization line through
 different sacrifices + struggles.
 And it is due to continuous
 overcoming the anti-activities.

+ wrong tendencies which harm
 the unity of the party. The P. has
 become an invincible power, but at
 present is still taking a policy of
 cooperation with bourgeoisie, the party
 bourgeois is still encircling ~~us~~
 like an ocean. The ideological +
 political ^{correct} of some comrades are still
 not ^{clear} very complicated, at the same time
 a part of the comrades in the Party
 + even some high level comrades do
 not have enough understanding of
 the importance of the unity +
 collective leadership, of the streng-
 thening + raising of the prestige of
 the C.C. + particularly ~~important~~
 after the victory of new democratic
 revolution in China - the most

dangerous proud sentiment is
 growing in some cadres of
 the Party, their brain became
 confused (Stalin) because of some
 achievement in their work. They
 have lost the attitude of the
 + spirit of self criticism
 which the Communist should have.
 They boast of the individual influ-
 ence suppressing the personal
 prestige thinking he is the first
 in the world, he can be only
 hear the compliments by others,
 but can't be criticized or criticized
 to be able. They have an attitude
 of superiority + change towards
 those who criticize. It causes
 all proper departments deviate

his independent kingdom. All these
 situations show during the most
 important historical period of social
 transformation it is a great neces-
 sity to remind comrades of all
 party their revolution vigilance + to
 further strengthen the unity in the P.
 The unity is the light of the Party
 + is the principle of mass
 leninism - why the undermining
 of the strength in the party is
 bad? To build the unity to
 matter in principle of party. To all
 comrades should all comrades
 to give the life to the unity
 + to strengthen the unity in the P.
 + to strengthen the high responsibility

Comrades above of the C.C. + above
the Provincial C. + high ranking
impossible comrades in the

should have a very high
concern to the necessity of
the unity in the P. + ~~the necessity~~
~~the~~ For this proposal the theme
of the unity, particularly detailed
measures to the unity, at
the same time it points out
the unity must be + only be
the unity based on Marxism
the unity based on correct political

in order to then
the unity not only the necessity
of democracy in the Party is
not allowed, but also the demand
unity must be guaranteed for all.

full development. Criticism + self
should be fully developed - so as
to avoid the dependence & defects
avoidable + to enable the P. the
successful development in its course.
It should be to improve different methods
A clear the internationalism underlines
the unity take a resolute attitude
against the P. point in their activities
to even carry on national activities,
partisan activities + other lines
lead to the P. the P. must take
a serious struggle against them -
give them a very strict punishment -
struggle to drag them out of the P.
only with this, the unity can be
maintained, increased, but not
very important dependence, or those

who have more serious deprivations
 & great defects, we can put the
 interest of the P. above the
 interest of individual, P.

should take a lenient line
 "To be friend with others, &
 cure ^{save} others. The P. must
 when elements within to foster
 discipline according to situation
 but all struggles must be carried
 on according to the instruction
 of the C.C. & Mao.

It is not suitable not to give
 them opportunities for confinement
 to expiate their formal &
 temperamental not very important
 mistakes as sending to grave -
 because this attitude does not

forced from the unity & then cannot
 reach the interest of unity.

The unity in the responsible comrades
 of C.C. & above provincial Committee
 & high rank in the forces is the
 key to the unity in the P. interior -
 These comrades have responsible
 for the cause of unity. The decision
 calls on these comrades & through
 them to educate the other to
 set themselves as an example,
 to unify the P. as a friendly
 family as a piece of steel &
 iron which on the basis of unity
 never disunites, so to unify the
 all working people & all people
 in China. To win over any plot
 of the outside & inside enemies.
